Sprint 2 objective

Evolve the dashboard into a consolidated, professional **BI platform** that ranks **financial impact**, alerts on **stock risks**, predicts **consumption** and works on any device.

- Financial ranking
- Stock alerts
- Predictive analytics
- Responsive BI

Financial and risk analysis

01

Financial impact ranking

Ranking of the materials with the largest financial impact.

Completed

02

Stock alerts

Alerts for idle stock, excess stock and risk of stockout.

Completed

03

Obsolescence and bottlenecks

Materials at risk of obsolescence and bottlenecks in replenishment.

Completed

Planning and efficiency

04

Coverage in days

Coverage time in days for each item.

Completed

05

Predictive analytics

Predictive analyses of consumption.

Completed

06
